

We benefit from listening to XM Satellite Radio and its traffic and weather channels. My husband is a long-haul truck driver who listens to XM Radio. He NEEDS local weather and traffic information. He doesn't need to endanger himself and others by searching for a local radio station and hoping they will do the weather in time for him to be properly informed. Reject NAB's petition 04-160 and keep them from making the serious mistake of limiting our access to local weather and traffic reports.

Thanks,
Karen Aubrey-Garrett
